

I want to let you know of how highly valued the format the K-LOVE radio is. They offer an opportunity to listen to conversation, news and music that does not contain encouragement to violence, unhealthy sexual relationships. On the other hand, they present choices that promote opportunities for a peaceful and hopeful future.

I truly believe that if K-LOVE were replaced/displaced by an LPFM broadcaster, my town of Ramona would be adversely affected since there would no longer be the messages that let us know of more life enriching and safe avenues in this life.

K-LOVE also has a variety of interviews that open up discussion of issues not addressed by other types of radio stations from my experience. This is very beneficial for the listening public since these particular types interviews and discussion open us up to more knowledge, more areas to look at.

Thank you for reading my note. I would greatly appreciate your not allowing an LPFM broadcaster to override my ability to listen to K-LOVE.
